

A photograph of two male scientists in a laboratory. They are wearing white lab coats, blue gloves, and clear safety goggles. The scientist on the right has a name tag on his coat that reads "AVANTIC". They are focused on their work, with one scientist holding a test tube and the other in the background. The background is slightly blurred, showing laboratory equipment and glassware.

ABOUT US

Welcome to Avantic, where we specialize in life sciences and consumer health. Our mission is to improve the health and well-being of people worldwide through sustainable business practices and high-quality products.

At Avantic, we believe in the core values of quality, cost, and access. We strive to provide affordable, high-quality treatments and medications that meet the needs of patients and healthcare professionals.

Innovation is at the heart of what we do. We are committed to pushing the boundaries of scientific research and discovery, with the aim of developing new treatments that help people live healthier and happier lives. Our slogan, "science forward, healthier world," reflects our determination to progress and make a meaningful impact in healthcare.

Sustainability is integral to our mission at Avantic. We strive to create economic, environmental, and social value through our business practices and products, recognizing our responsibility to society goes beyond delivering life-improving medicines.

PUSH THE BOUNDARIES

OUR VISION

At Avantic, we are driven by a passion for improving people's lives through innovative healthcare solutions. Our vision is to be a leading pharmaceutical company that is recognized for its unwavering commitment to scientific rigor, ethical behavior, and sustainable practices. We believe that by upholding these values, we can make a positive impact on the world and help create a healthier future for all.

OUR MISSION

Avantic is dedicated to advancing human health through innovative pharmaceutical research and development. We are committed to providing high-quality, safe, and effective treatments that improve patients' lives. Our mission is to push the boundaries of science and technology to develop new therapies and improve the standard of care for patients worldwide.

HEALTHIER WORLD

SCIENCE FORWARD

OUR VALUES

Avantic values integrity, innovation, collaboration, excellence, and a commitment to improving the lives of patients through the development of high-quality pharmaceutical products. We strive to foster economic, environmental and social well-being through our operations and in our work with others.

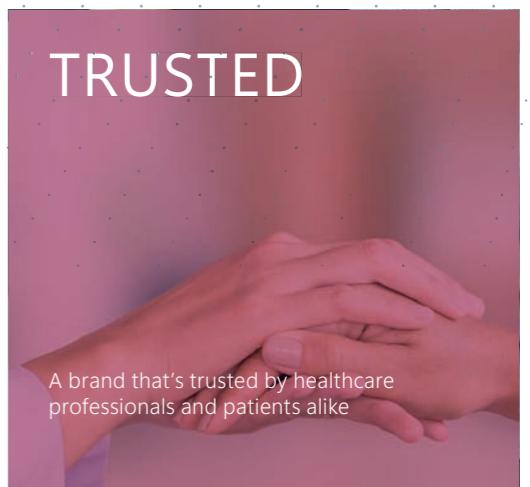

OUR QUINTESSENCE

RELEVANT

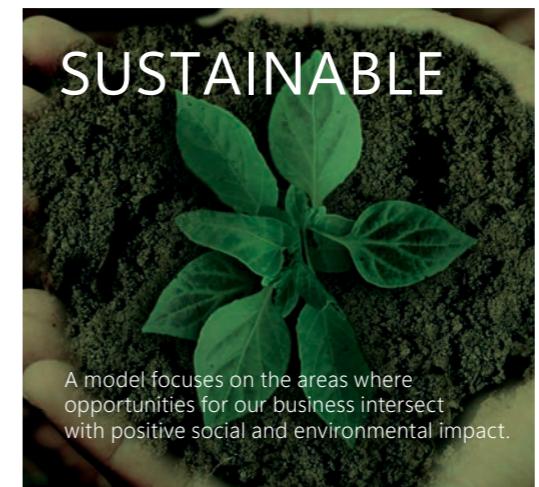

A portfolio of diversified products, aligned with key health trends.

TRUSTED

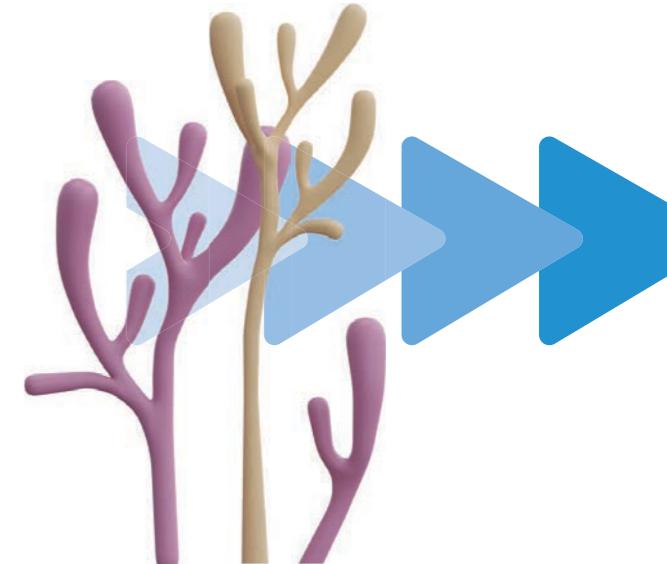

A brand that's trusted by healthcare professionals and patients alike

A model focuses on the areas where opportunities for our business intersect with positive social and environmental impact.

OUR GOALS

01

OBJECTIVE

Secure a leading position in the pharmaceutical sector.

02

OBJECTIVE

Achieve Global Growth.

03

OBJECTIVE

Become an educational hub.

STRATEGY

Constantly invest in the R&D department and consolidate market shares of established products

STRATEGY

Drive business growth through initiatives to establish a network with global partners who share our vision.

STRATEGY

Inspire the young people of today to become the scientific leaders of tomorrow.

04

OBJECTIVE

Creating a responsible, sustainable and inclusive business Model.

05

OBJECTIVE

Building a healthier, thriving society.

06

OBJECTIVE

Environmental sustainability.

STRATEGY

Focus on employee motivation. Take initiatives that build value of trust and contribute in creating an enjoyable work environment and diverse workplace.

STRATEGY

Foster economic, environmental and social well-being through our operations and partnerships.

STRATEGY

Use of Eco-Friendly Packaging. From the materials and energy required for products' manufacture, through its ultimate disposal.

OUR CODE

► Integrity

We conduct ourselves with the highest level of integrity, transparency, and ethical behavior.

We value open and honest communication and adhere to the highest standards of compliance.

► Innovation

We are dedicated to innovation and finding new and better ways to address the needs of our patients and the environment.

We encourage a culture of curiosity, learning, and improvement.

► Patient-Focused

Our patients' needs and well-being come first.

We are dedicated to improving the quality of life for patients and their families.

► Sustainability

We are committed to sustainability and reducing our environmental impact in all aspects of our business operations.

We strive to promote a healthy planet for future generations.

► Diversity

We believe that collaboration and teamwork are critical to our success.

We foster a supportive and inclusive work environment where everyone's unique perspectives and experiences are valued and respected.

► Environmental Responsibility

We take responsibility for the environmental impact of our operations and make choices that minimize harm to the planet.

We believe in using resources wisely and reducing waste whenever possible.
